

Students with Dependants

Studying at university can be difficult at the best of times, but combining this with trying to bring up children or caring for someone can be a real struggle. There are sources of help available for students in this position though, and this leaflet aims to outline the help you might be entitled to.

Student Funding

The information about student funding in this leaflet **does not apply** to the following groups of students and you should contact the Advice Centre directly for information relevant to you:

- Students who started their course before September 2006
- International students
- Students on NHS funded courses
- Part time students

Fees

The cost of a full time undergraduate course at Sheffield Hallam University is £3,290 for the academic year 2010/11. You can apply for a Tuition Fee loan to pay your fees in full or part (see below).

Special Support Grant/Maintenance Grant

Students who are eligible to claim benefits during term time or just in summer can apply for the Special Support Grant instead of the Maintenance Grant. Both of these grants are worth up to £2,906 but it is important to claim SSG instead of MG if you qualify for it. This is because SSG is not counted as income for benefit claims and because receipt of the MG reduces the level of student loan available to you whilst receipt of the SSG doesn't. You do not need to repay these grants after your course.

University Bursary Schemes

You can apply for additional bursaries from Sheffield Hallam University as part of your student funding application. All you have to do is agree to allow your information to be shared with the university on the student funding application form (you do this by NOT ticking the box to refuse to allow this). The University will award bursaries depending on the level of other student funding you are awarded. University bursaries are paid by the Student Loans Company along with your other student funding.

Hallam Grant Bursary of £700 per year for students in receipt of any mean-tested Student Funding (pre 2008 entry) or £1000+ of the Maintenance Grant/Special Support Grant (2008+ entry).

For new students Sept 2009 + entry, you must receive the full amount of the Maintenance Grant/Special support Grant to receive the bursary.

Hallam Access Bursary of £300 per year for students coming to SHU from a partnership school or college. To see if your school or college is one of Sheffield Hallam University's partner schools or colleges visit: <http://www.shu.ac.uk/study/ug/money.html>

You do not need to repay these bursaries after your course.

Tuition Fee Loan

Students who are entitled to Student Funding can also receive a Tuition Fee Loan of up to £3290 to meet their Tuition Fees. It is not means tested so your household income won't affect entitlement. It is paid directly to your institution to meet your fees.

You need repay this loan after you have finished the course and when your earnings exceed £15,000 per year.

The following are additional grants for students with dependants or disabilities and do not have to be repaid.

Adult Dependants' Grant

In order to receive this grant, your spouse or partner or another adult dependant must be "wholly or mainly financial dependent" on you. It is worth up to £2,642 and is means tested on your dependant's income. There are age and other rules relating to your marital status, so you should check your eligibility.

NB: If you are under 25 and have a partner but are not married or Civil Partners you cannot claim an Adult Dependent Grant as the law does not view him/her as being dependent on you.

Childcare Grant

The Childcare grant is based on actual costs of registered or accredited childcare for each dependant child under 15 (17 if they have special educational needs). The grant will pay 85% of childcare costs up to a weekly limit. It is means tested. If you claim the Childcare Grant it will replace any help you receive with childcare through Working Tax Credit.

Parent Learning Allowance

This grant is paid for course related costs and is £50 minimum, up to a maximum of £1,508. It is means tested. It does not have to be repaid.

Disabled Student Allowance

This is available to full time undergraduate and certain part time and postgraduate courses for extra costs involved in studying due to their disability. See the 'Students with Disabilities' leaflet for more information. It does not have to be repaid.

PART TIME STUDENTS

Part time students may be able to claim a grant for fees and a £265 grant for books, travel and course costs through their Local Education Authority. You must be studying at least 50% of a full time course to be eligible. The amount of tuition fee grant will depend on how intensive your course is. For example if you study at a rate equivalent to 75% of a full time course you could qualify for a higher fee grant than a student studying at a rate equivalent to 50% of a full time course.

There is no additional grant for dependants but depending on your circumstances, you may be eligible to apply for the Access to Learning Fund (see next section).

Part Time Course Fee Funding

How intensive your course is	Maximum Fee Grant	Maximum Course Grant	Total Support
Equivalent to 50% to 59% of the full time course	£820	£265	£1085
Equivalent to 60% to 74% of the full time course	£985	£265	£1250
Equivalent to 75% or more of a full time course	£1230	£265	£1495

Funding from the Student Finance Centre at Sheffield Hallam University

Access to Learning Funds

The Access to Learning Fund is a means tested scheme funded by the Government but operated at Sheffield Hallam University by the Student Finance Centre. Your assessed income is measured against your assessed outgoings, which may be capped. There are two types of awards -

- standard assessments - to meet the general costs of being a student; and
- non standard awards - to meet exceptional costs such as emergency situations.

If you are a postgraduate student you must have evidence you can pay your fees, and that you have income for the year to support yourself. Full time undergraduates must have taken out the maximum Student funding available to them first.

Funding from Benefits and Tax Credits

The rules regarding students and benefits are particularly complicated and we would advise all students who are parents to come to the Advice Centre for a benefit check.

Child Tax Credit

Child Tax Credit is a single system of support for families, with children, who are in or out of work. It is paid directly to the main carer of the children. It provides support for children until 1st September following their 16th birthday, or up to 19 (in some cases 20) if they are in full time, non-advanced education or registered for work or training with the careers service or connexions service. If you receive Child Tax Credit but not Working Tax Credit and your annual income is £16'190 or less, your children are entitled to free school meals.

Working Tax Credit

If you or your partner work more than 16 hours per week and have a child, you may be entitled to Working Tax Credit to 'top up' your wages. The Working Tax Credit is paid to workers in low income households. There will be additional amounts paid for workers with disabilities and those who work more than 30 hours per week. You may also qualify for help with childcare costs through Working Tax Credit, but if you do, you cannot get a Childcare Grant as part of your student funding.

All student income apart from the Adult Dependents Grant is disregarded in full for Tax Credit purposes.

Child Benefit

This is available to those with responsibility for a child living with them, regardless of income or being a student. The government stopped the higher rate for lone parents in 1998 but those that have claimed it before 6th July 1998 will continue to receive it.

The weekly rates are	April 2010
Eldest Child	£20.30
For Each Additional Child	£13.40

Income Support and Income Based Jobseekers Allowance (JSA)

Most students are not eligible to claim Income Support or JSA, but lone parents, students in a couple with a child and partners of students (who are not studying themselves) can still claim.

Your Student Loan and Adult Dependents' Grant are taken into account as income during term time for means tested benefits. This often means that little, if any benefit is payable during term time, with a higher rate paid during the summer vacation. As the calculations are all dependent on your individual circumstances, it is probably best to come into the Advice Centre for a full benefit check. (See Contacts)

You can claim Income Support if you are a full time student and:

- you are the lone parent or lone foster parent of a child under 10 (under 7 from October 2010) or
- you are one of a couple who are both full time students, either one or both of you are responsible for a child under 10 (under 7 from October 2010) and it is the summer vacation.

You can claim Jobseekers Allowance during the summer vacation if you are a full time student and:

- you are a lone parent with responsibility for a child
- you are one of a couple who are both full time students and either one or both of you is responsible for a child, or a lone parent and you are available for work.

You can also claim Jobseekers Allowance if you are a full time student waiting to continue your course having taken approved time out due to

- caring responsibilities or illness that have now ended

If your partner is not a full time student they may be able to claim Income Support or JSA for you both. They must fulfil the normal criteria. The income from your Student Loan and Adult Dependents' Grant will be taken into account as family income in term time.

If you are a part time student

- you can claim Income Support as long as you fulfil all the usual criteria and are not on a full time course
- you may be entitled to Jobseekers Allowance - seek advice.

Housing Benefit

This is a benefit that gives assistance with rent. Most students are not eligible to claim Housing Benefit. However there are certain categories of full time students who can claim including:

- lone parents and lone foster parents (including those with children over 16, but still living at home and in full time education)
- couples who are both full time students and either one or both are responsible for a child
- partners of full time students if they fulfil criteria
- those receiving Income Support or JSA who are waiting to go back on their course having taken approved time out because of an illness or a caring responsibility that has now come to an end.

If you are a part time student, you should be able to claim Housing Benefit as long as you meet the standard criteria.

Housing Benefit is a means tested benefit (your Student Loan and Adult Dependents' Grant are counted as income) so you will probably have reduced benefit during term time, with a higher rate paid during the summer holidays.

Child benefit is no longer included as income for the purposes of Housing Benefit.

If your partner is not a full time student they may be able to claim Housing Benefit for you both. They must fulfil the normal criteria. The income from your Student Loan and Adult Dependents' Grant will be taken into account as family income in term time.

Example:

Jane is a lone parent with a child aged 8. She rents a Housing Association property at £55:00 per week. During term time her Housing Benefit is reduced and she receives no Income Support as her Student Loan is taken into account as income for both of these benefits. In Summer, she receives full Income Support and Housing Benefit as the Student Loan is ignored. She receives Child Tax Credits and Child Benefit all year long.

Council Tax benefit

Although Full Time students are not liable for council tax, if there is a non-student in the household, then there may be a Council Tax liability. If there is only one non student in the property they will be able to apply for a 'single person' discount of 25% discount.

They may also be able to claim Council Tax benefit to help meet the remaining 75% of the bill depending on household income.

Social Fund

DWP Social Fund grants and loans are available for maternity and funeral expenses, periods of cold weather and for expenses, which are hard to meet out of your budget. You must satisfy certain criteria. Claims are made through Jobcentre Plus.

NHS Charges

You are automatically exempt from NHS charges if you or a member of your family receives Income Support or income based Jobseekers Allowance, or Pension Credit. If you or your partner are receiving;

- Child Tax Credit; or
- Child Tax Credit and Working Tax Credit; or
- Working Tax Credit including a disability element; and
- your gross income for tax credits is below £15'276 p.a., you will be sent an exemption certificate.

You may not be automatically exempt from paying NHS charges. You should apply on form HC1 for help with paying costs such as prescriptions and dental charges. If you need more advice about getting help with health costs, contact the Health Cost advice line on 0845 850 1166

Other Help for Students with Children

Childcare

There are places for 74 children at Collegiate Crescent Nursery. They will take children between 6 months to 5 years and can provide full or sessional day care. The nursery can also provide information on out of school clubs and holiday schemes in Sheffield.

If you cannot get a place for your child, then the Children's Information Service can provide a list of local crèches and nurseries. (See Contacts) You could also try contacting Childcare Link via the Direct.gov website <http://childcarefinder.direct.gov.uk>

Education

If you are having problems with your course due to family commitments contact your tutor as soon as possible. You may need to submit an EC1 form to explain any problems (see our leaflet on Appeals and

Extenuating Circumstances). Most Courses are very helpful, but if this isn't the case, you could also contact, your Course Rep or the Academic Affairs Executive at the Students Union (See Contacts).

Student & Learning Services run general study skill courses that may be useful if you have been out of study for some time. (See Contacts)

Accommodation

The University has a very limited amount of accommodation for students with children. Contact the Housing and Accommodation Office for details. Most of the private properties listed at the Housing and Accommodation Office tend to be for single students, but it is always worth looking. (See Contacts)

Housing Aid within Sheffield Council has lists of private landlords, Council properties and Housing Associations, which may be more suitable. (See Contacts) Otherwise try The Star or Sheffield Telegraph newspapers or look in Post Offices, small shops etc. Contact your nearest Housing Office (see the phone book) for a list of Council properties and Housing Association properties in the area you want to live.
